Project: MHPC #2316-06 - Half Moon Cove Tidal Power project; P-12704
Town: Perry, ME

Dear Mr. Laberge:

In response to your recent request, I have reviewed the information received March 31, 2009 to continue consultation on the above referenced project in accordance with Section 106 of the National Historic Preservation Act.

Regarding the Pre-Application document dated March 2009 which you recently submitted to the U.S. FERC, we could not locate any reference to the architectural survey which we previously requested in our letters of August 29, 2006 and February 2, 2009. We are still requiring that this survey be completed in order to continue Section 106 consultation with our office.

Please note that the document does include a statement regarding the archaeological survey which we also previously requested.

Once we receive the information requested above, we will forward a response regarding the results of our evaluation. Please contact Robin Stancampiano of my staff if we can be of further assistance in this matter.

Sincerely,

Kirk F. Mohney
Deputy State Historic Preservation Officer

cc. Kimberly Bose, Secretary, US FERC
